

# YOUR PARTNER IN PEST MANAGEMENT CREATIVE PEST

## **Your most important investment is your family, your colleagues, and your clients**

That's why we at Creative have designed an Integrated Pest Management program or "IPM" to protect the environment in which you and your family reside, you and your colleagues work, and your clients choose to conduct business.

We will perform an interior and exterior inspection of your home or business to identify any present pest activity and note any areas of future concern.

## **Fast control and elimination of various assortments of pests**

Our perimeter treatment gets rid of troublesome pests fast and you won't see a trace of them for a long time. We use highly effective, industry-leading pest control products designed to eliminate many different pests in just minutes without a bothersome odor for you, your family, your pets or your colleagues and clients. Our perimeter pest treatment provides control of numerous pests including: ants, spiders,

crickets, pillbugs, silverfish, millipedes, fleas, cockroaches, ticks, rats, mice, and many other pests.
